[Android/Chromebooks](#)

Computer

1. Select the **Wireless NetworkConnection** icon on the right of the **Task Bar**, Windows will display available wireless networks.

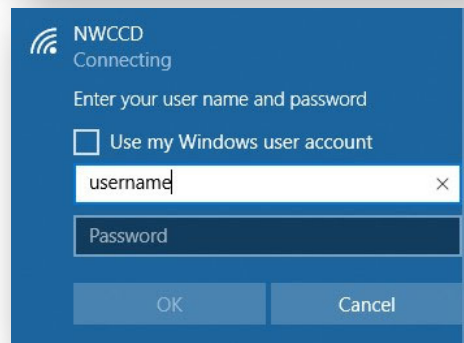

2. To begin configuring your computer for the wireless network, click **NWCCD**. **NWCCD** will become highlighted when it is selected. After selecting **NWCCD**, click the connect button.

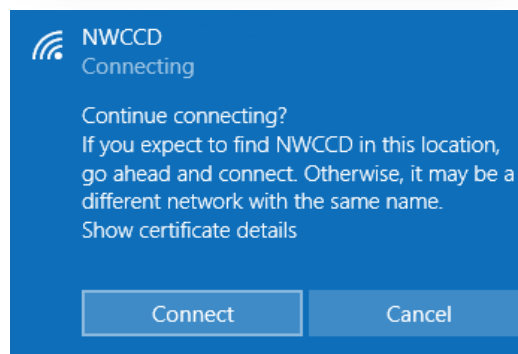

3. Enter your NWCCD student **username** and **password**

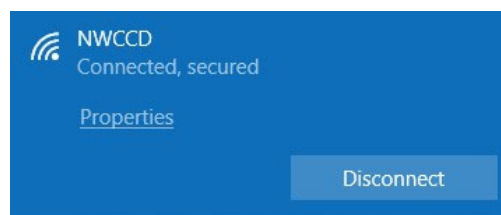

(do not include ...@sheridan.edu)

4. You will then be prompted to **accept** the authentication server's certificate to initiate encryption. This keeps your user-ID and password safe. Since this is the first time Windows has encountered this certificate, it will display the warning below.

5. You can verify you are connected by **clicking once** on the **Wireless Network Connection** icon on the right of the **Task Bar**.
